

US-2.3 — Use my current location/current building as the start location

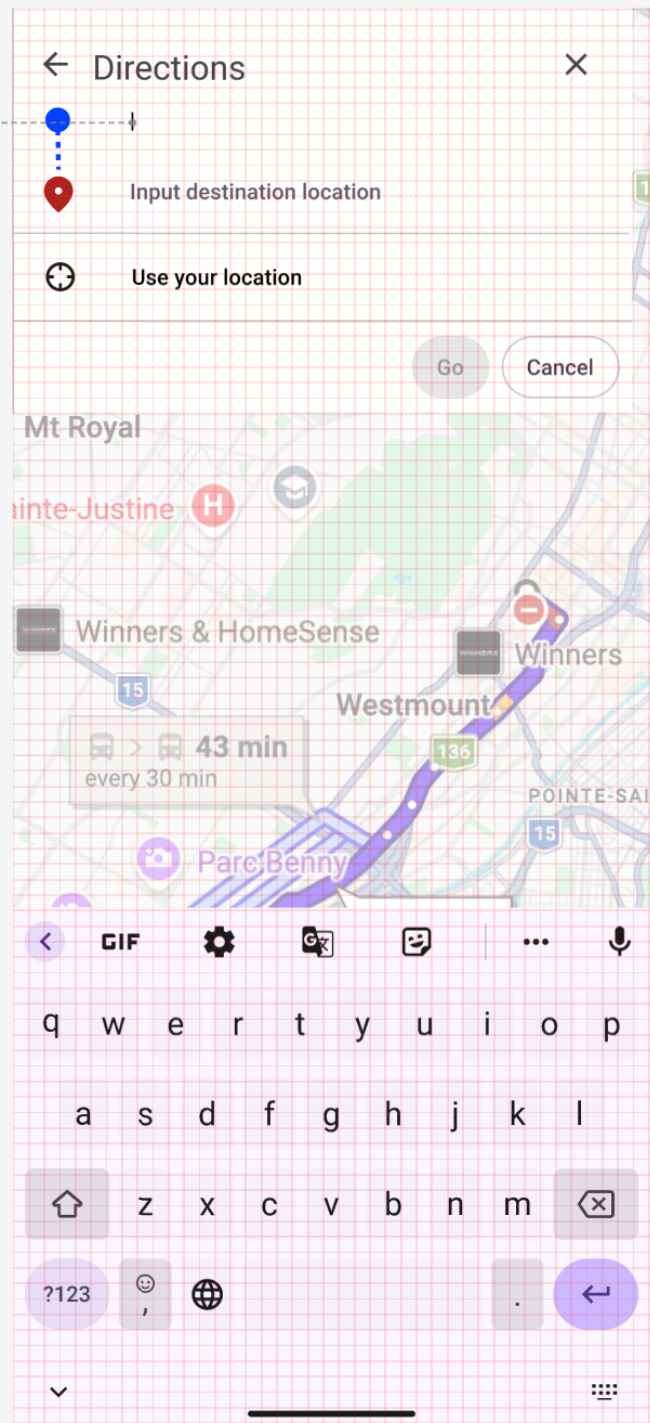

Personas: Emily Nguyen (new student), Liam Dubois (young staff), Sofia Lopez (graduate student), Alexia Martin (student with mobility disability), Jordan Lee (staff with colorblindness)

- Given location permission is granted and location services are enabled, when the user taps “Use my location” (or “Use current building”), then the start location is set automatically.

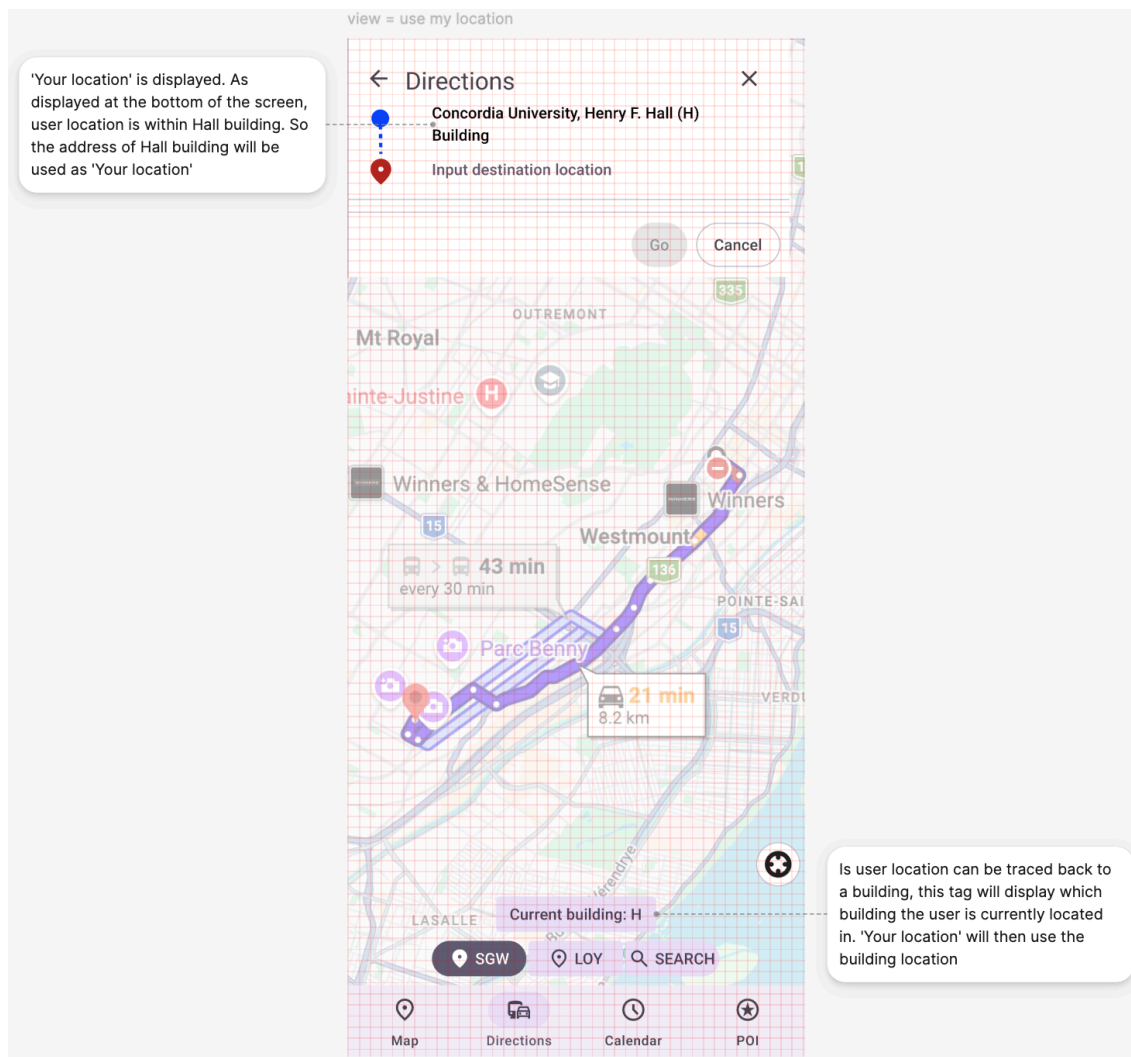

view = use my location

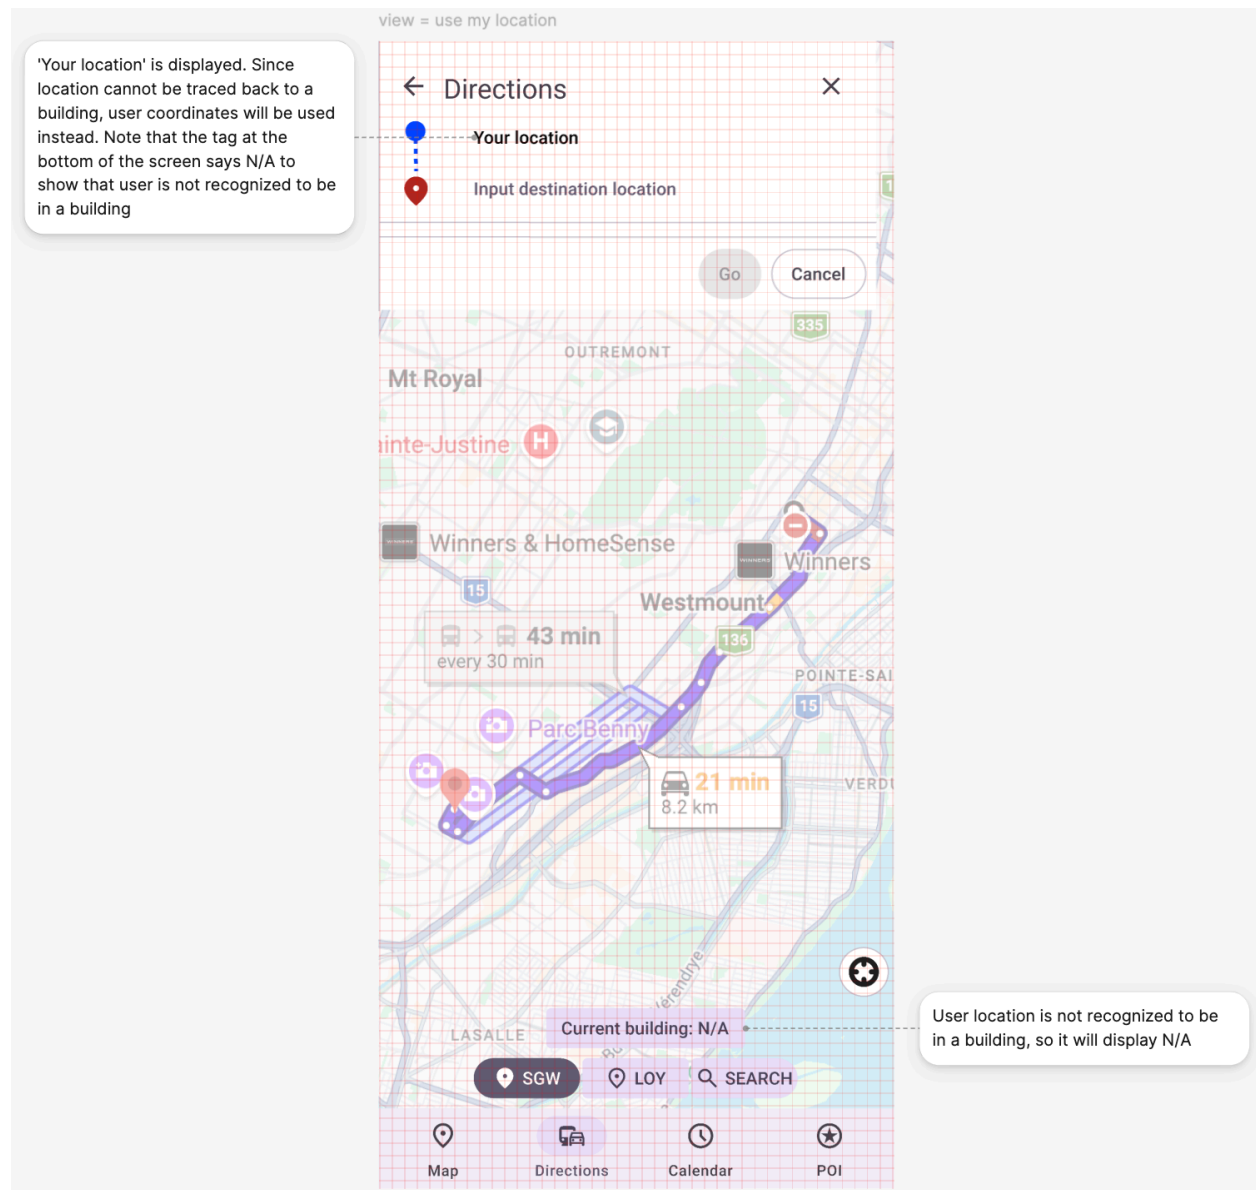

Input for start location is opened and user can select 'Use your location' option

- If the app can determine the current building, the start is shown as that building; otherwise the start is set as current GPS coordinates (or the UI clearly indicates “Current location”).

otherwise the start is set as current GPS coordinates (or the UI clearly indicates “Current location”).

- If permission is denied or location is unavailable, the app shows an explanatory message and does not crash.
