

### Sprint 3

#### US-2.7 — Show step-by-step direction instructions

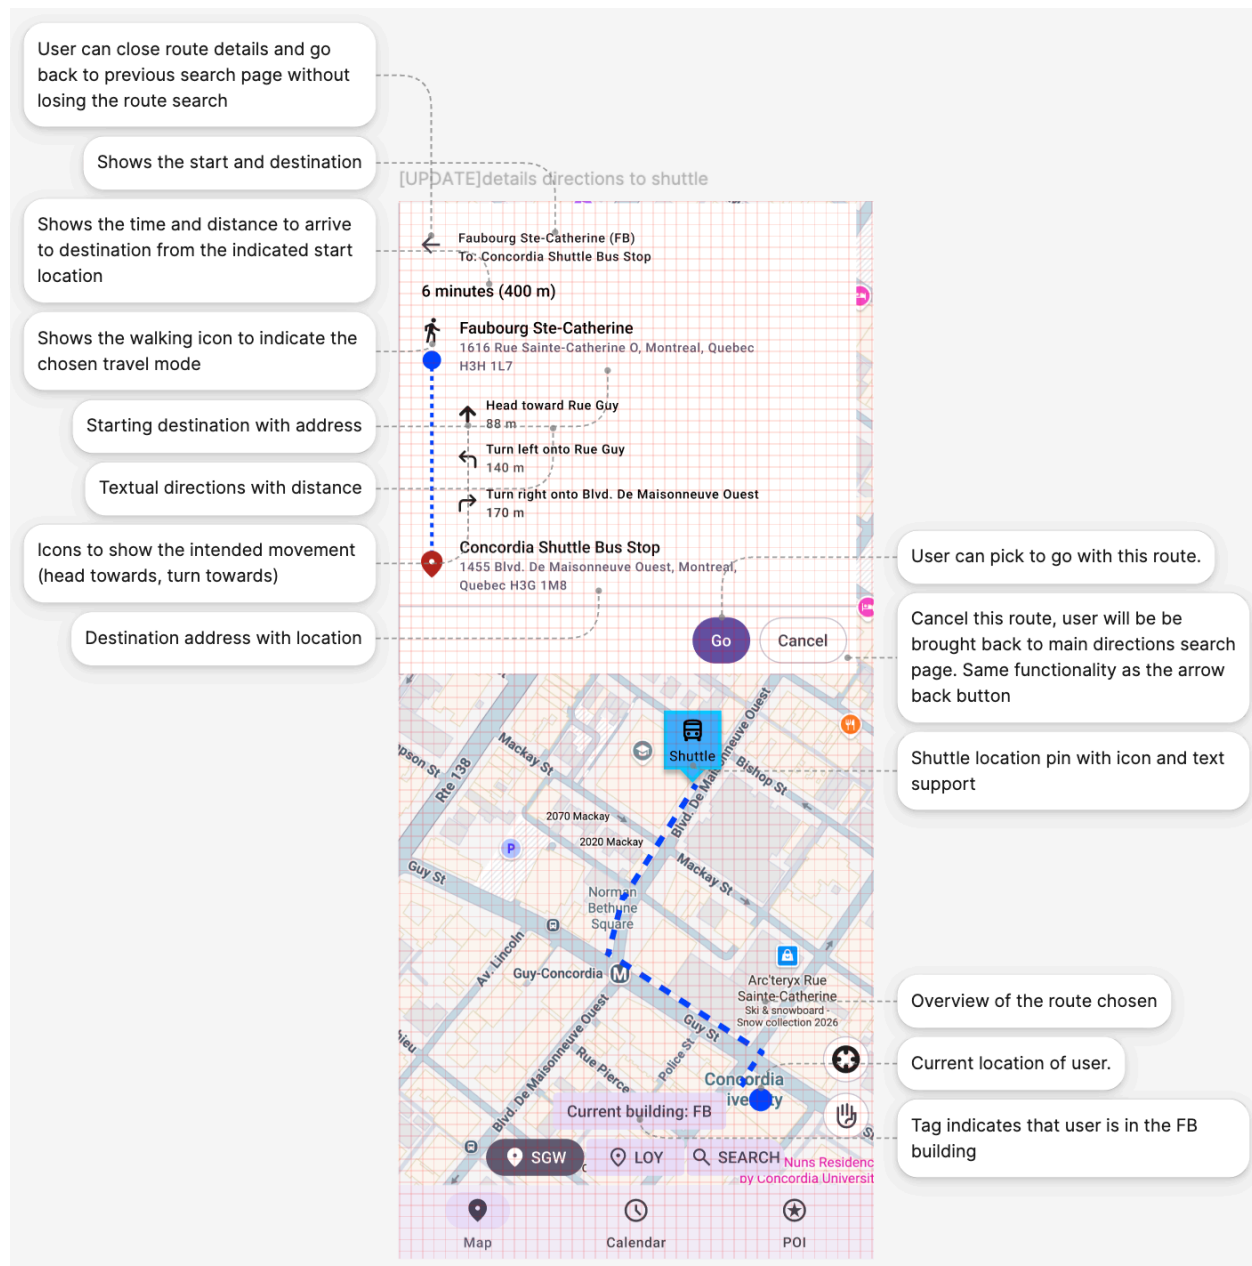

Personas: Emily Nguyen (new student), Liam Dubois (young staff), Sofia Lopez (graduate student), Alexia Martin (student with mobility disability), Jordan Lee (staff with colorblindness)

Accessibility: step list is readable and scrollable with screen readers.

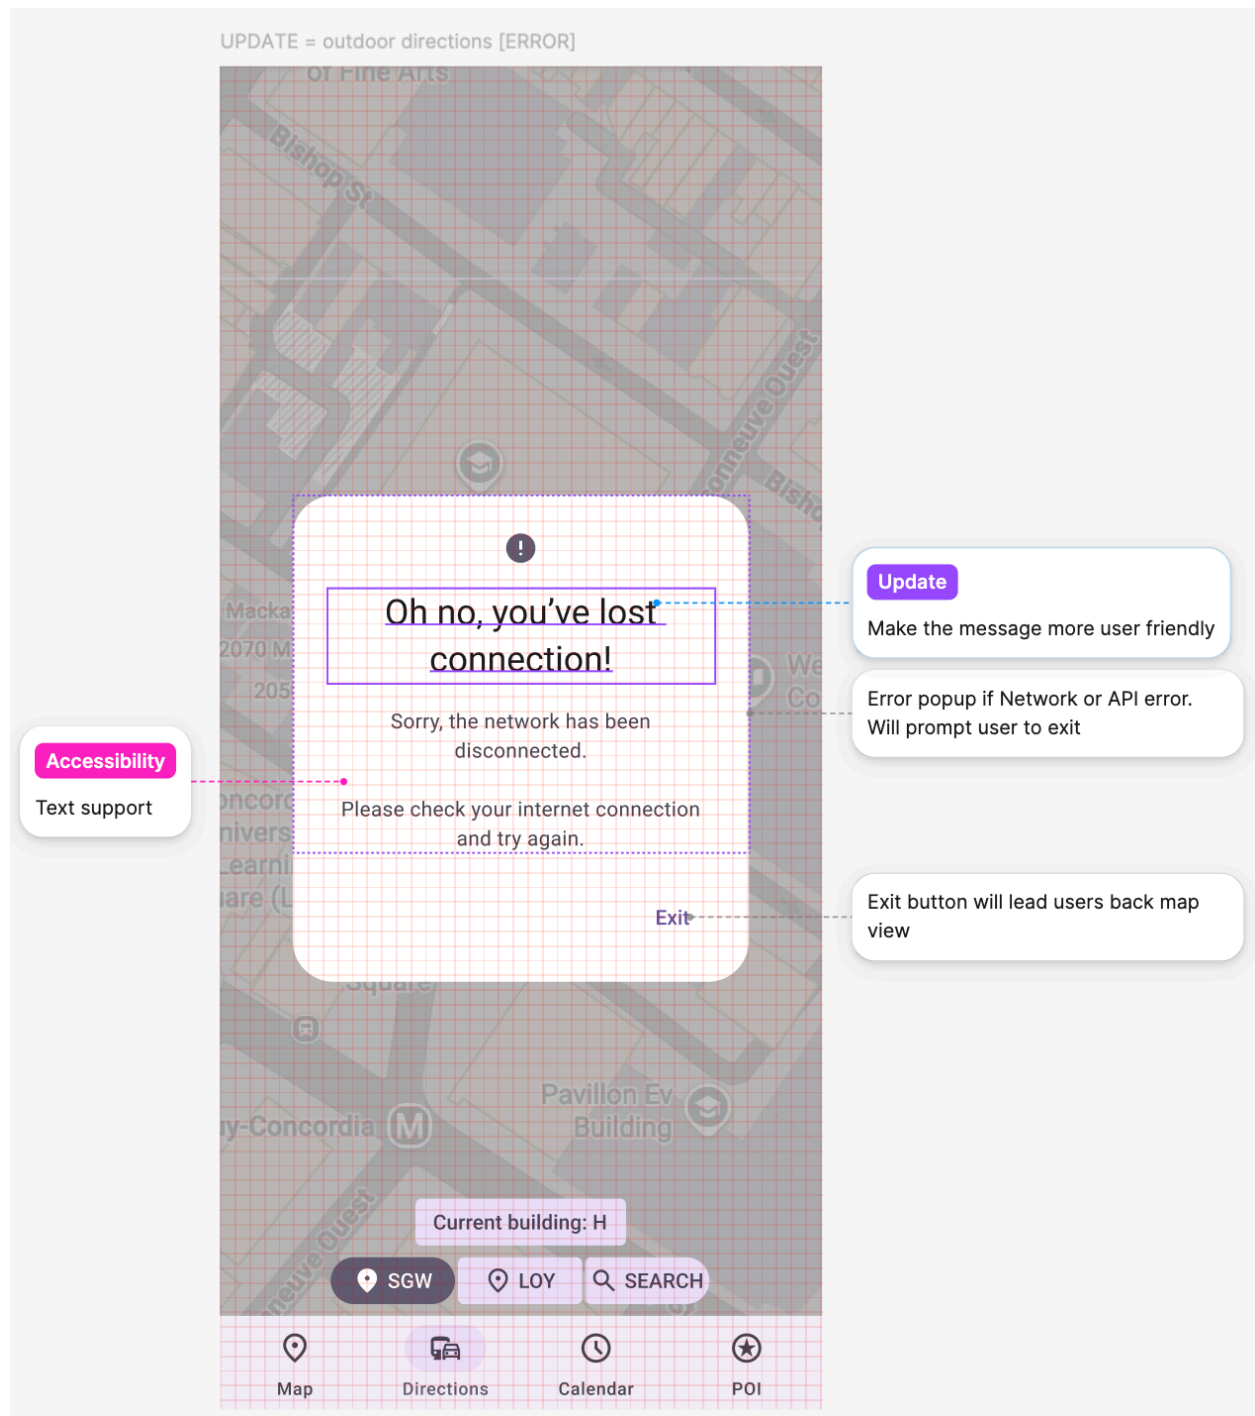

- Given a route is displayed, when the user opens route details, then the app displays a list of step-by-step instructions from the directions response.

- Steps are ordered and include meaningful text instructions.
- The user can return to the map from the step list without losing the route.

- If the route has no available steps (unexpected API response), the app shows a clear fallback message.

Clear start and destination locations indicated

Arrow will bring user back to the search result page

Icons indicate the travel mode

Shows the user each leg of the trip. The blue dotted line is the walk travel mode

### Accessibility

Blue dotted line indicates that this portion is walking. The dotted line has a tighter dotted pattern to differentiate from different travel modes

Shuttle icon shows a visual cue of a change in travel mode

Indicates next shuttle departure

### Accessibility

The dotted line for shuttle mode is wider and a different colour

Clear destination location indicated

### Shuttle direction breakdown
